About the Company.

Professional Home Inspection Company

HOME INSPECTORS NIGERIA LTD. is the first professional home inspection company in Nigeria. It was born out of the need for accountability and surety in the Nigerian real estate sector, protecting both buyers and sellers of real estate. We offer the best training in the industry by combining classroom lectures, in-field inspections, and hands-on training. Our training is specially designed for our business owners and inspectors and illustrates what to examine when performing a quality home inspection.

WHY CHOOSE US?

Attention to Details

We perform inspections when you need them

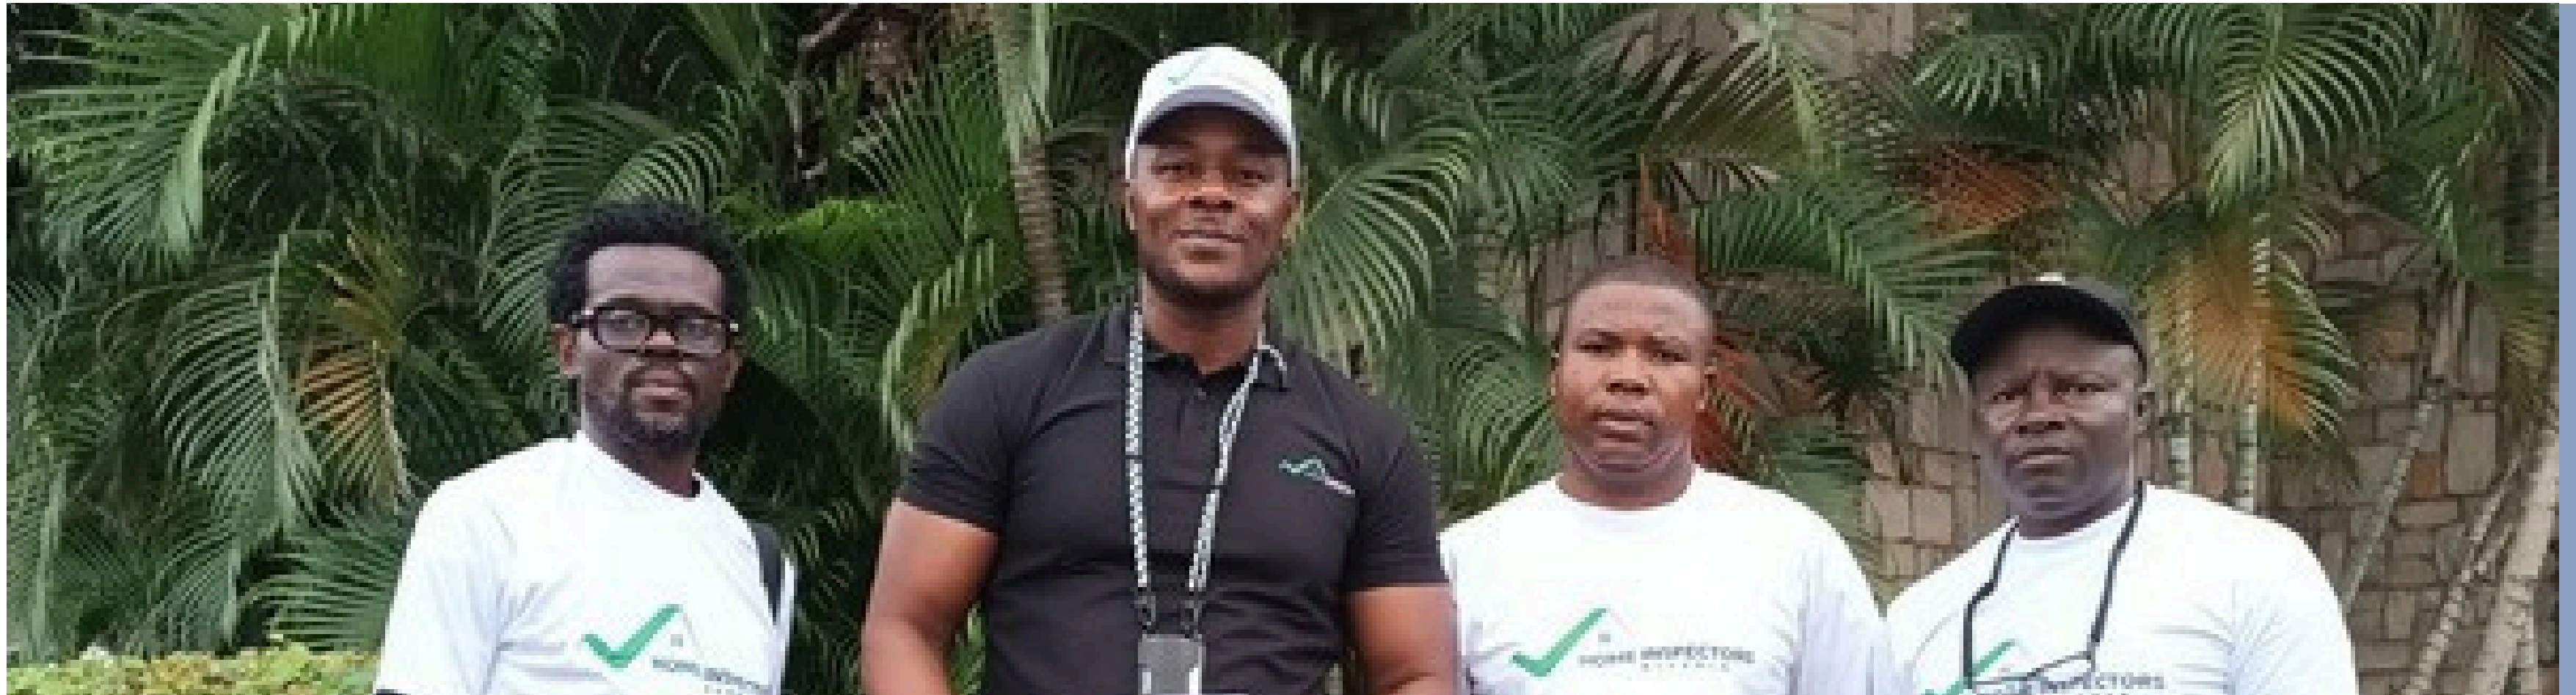

Trained Workers

We provide easy-to-read reports

Customer Support

We are available after the inspection to answer any questions

Our Vision.

www.homeinspectors.ng

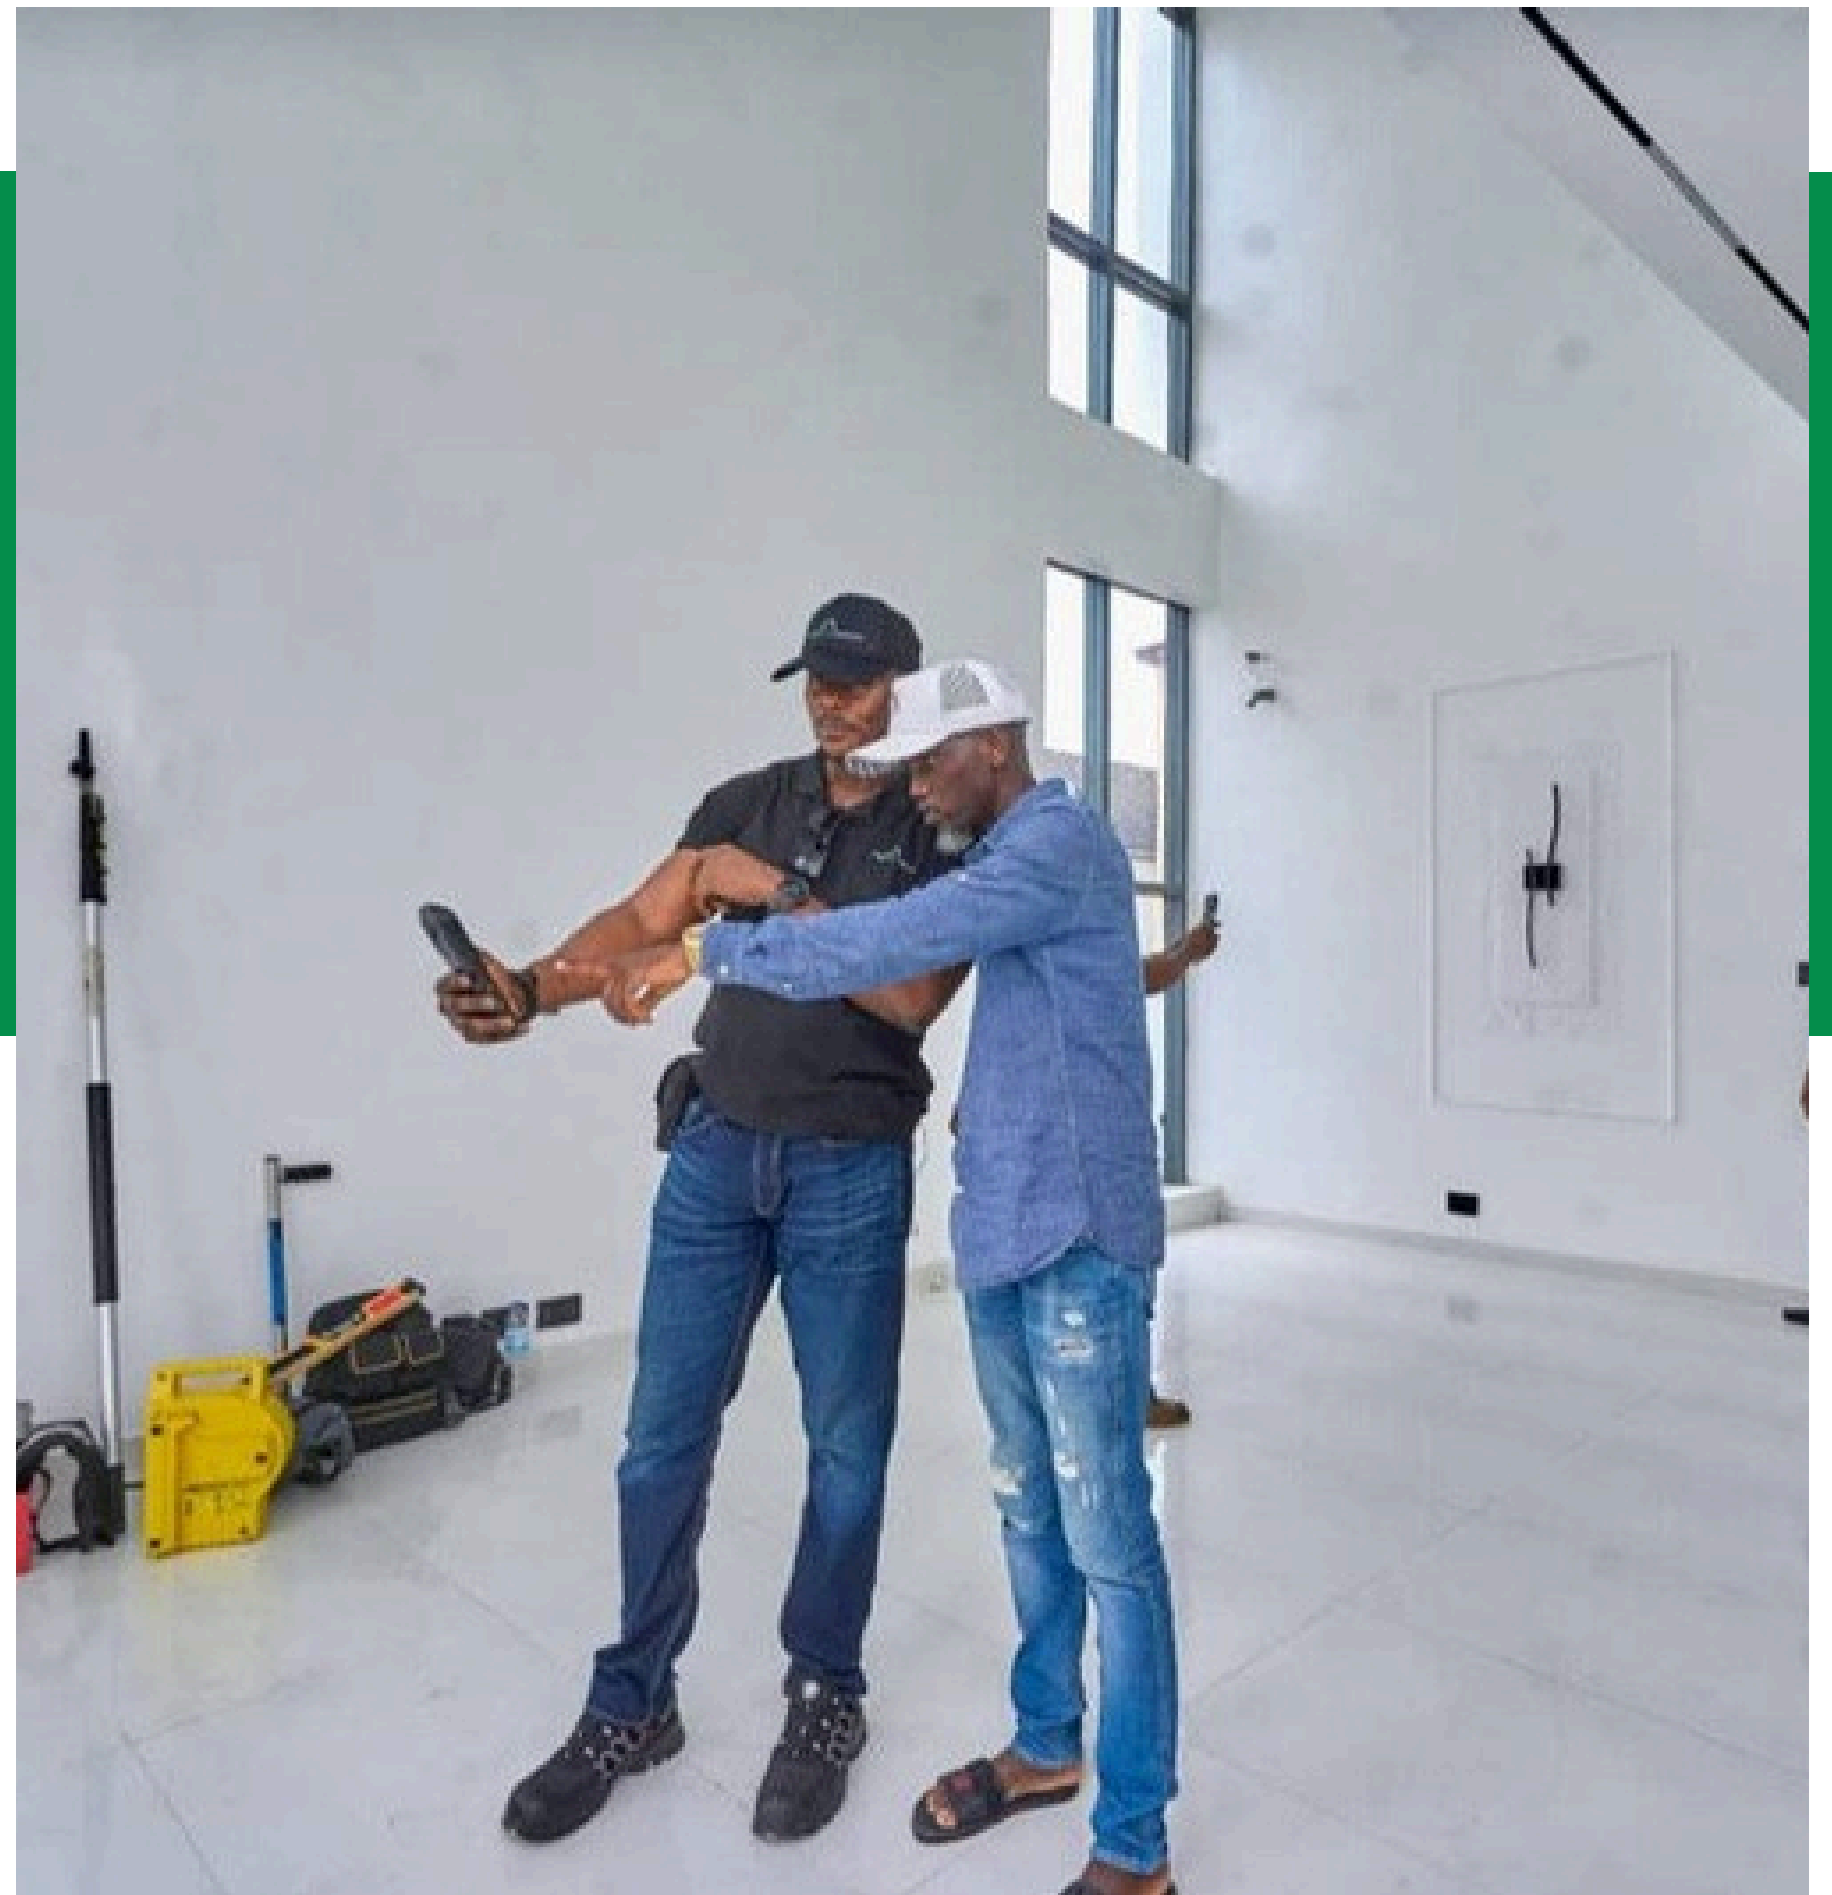

At HINL, Our Vision is to:

To build and maintain an excellent home inspection industry in Nigeria, whilst greatly improving its built environment.

Our Mission.

At HINL, Our Mission Is:

To build and maintain an industry-leading home inspection service, whilst delivering qualitative and timely inspections using the best modern tools and innovations.

Our Value Pillars

www.homeinspectors.ng

Community Relations & Social Impact

We believe in giving back. Our team:

- Conducts free community awareness clinics on home safety.
- Partners with local associations to train artisans and homeowners.
- Runs youth-focused training hubs to build job skills in under-resourced areas.

Skilled and Certified Professionals

Our inspectors are certified through InspectAfrica's pioneering ACHI program (The first and only inspection training adopted for African building realities). Continuous development and international exposure ensure up-to-date technical and ethical standards.

Innovation & Technology Excellence

HINL integrates digital tools including:

- Mobile inspection apps
- Drone and thermal imaging
- Cloud-based CRM and reporting
- AI-assisted diagnostics for material failures

These tools enable us to deliver fast, photo-rich, and accurate inspection reports for a variety of properties

The Milestones.

2025

2025

2025

2025

First quarter

Pan African training in Johannesburg South Africa

Second quarter

Services upgrade and improved quality assurance metrics

Third quarter

Started partnership with Pan African Inspectors (PAI) and Home Inspectors South Africa (HISA).

Fourth quarter

Became the first professional home inspection company to register with REDAN.

Our Services.

Property Inspection

At HINL we specialize in inspecting a wide range of properties from private residential buildings, to hotels and stores, etc. Our seasoned property inspectors understand the intricate details that makes or break a home or commercial inspection

Virtual Reality Inspection

3D Home Inspections are the most immersive and engaging way to experience real homes straight from your web browser. Virtual reality home inspections take this sense of immersion to the next level by making users feel like they're really inside the home!

Snag Inspection

Our comprehensive snag inspection identifies all defects found in different properties. During a detailed snag inspection, we identify issues at the property that are not in line with common building standards, including unfinished works, poor quality, improper installations, and breaches of common safety regulations.

Repair assessment & estimate

This service would help in drafting and reviewing tenders for your maintenance repairs, renovations, or remodeling. Property owners can save a lot by cutting down on time and unnecessary tasks when they know exactly what needs fixing.

About The Founder

Casper Chidubem brings over 22 years of experience in the construction industry, with a strong background in remodeling and rehabilitating both residential and commercial properties. His work has focused on transforming existing structures into modern, functional spaces that meet evolving design and performance standards. **Casper** holds professional certifications in Project Management and Construction Management, which have strengthened his technical and leadership capabilities within the built environment. Driven by his firsthand experience with the widespread lack of quality assurance and compliance in construction across Africa, **Casper** transitioned into the property inspection field. In addition to his inspection work, **Casper** is deeply committed to advancing the industry through education. He has developed Africa's first home inspection training program tailored to the continent's unique construction conditions and regulatory frameworks. He actively trains individuals, organizations, and corporate bodies on building safety, home inspection, and quality management.

Our Badges.

Our Badges speaks for us

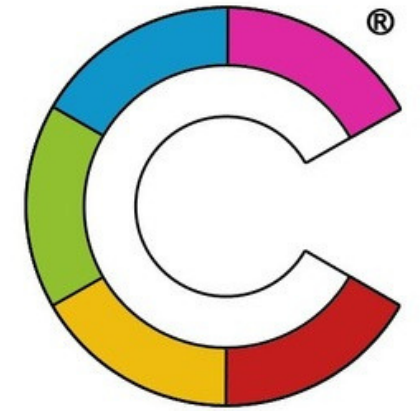

We've earned multiple professional badges through InterNACHI, the world's largest association of residential and commercial property inspectors and InspectAfrica (ACHI) Africans pioneering home inspection academy

Here are some of our earned badges...

Client Testimonials.

Sam
disapora Client

Truly a delight to find a company that offers the same level of assurance that comes with a pre-purchase property inspection that matches what we're used to in the states.

Glad to report that concerns we Nigerians in the diaspora are having these needs met.

Thanks to Mr. Casper and his team for making the whole process seamless.

Highly recommended service.

Lily Izevbigie
GM L'eola Hotel

When we engaged the team, i was skeptical as i imagined they would not be as detailed. The report was so detailed it basically will help you fix issues immediately. The team were highly professional. For any business home owner interested in a safe property, home inspectors is the way to go.

Dele .O
DeeglobalRealties–Lekki, Lagos

I run multiple Airbnb apartments in Lagos, and this inspection service is now part of my standard turnover routine. The detailed reports help me maintain quality and avoid negative reviews. Total game-changer!

Deborah. O
HUGO Tech.

Reliable, punctual, and professional. We've used them for multiple office space lease inspections across Lagos and always received consistent, highly valuable service.

Meet the Board.

Casper Chidubem

PRESIDENT/ FOUNDER

Casper Chidubem is a construction and property inspection professional with 22+ years' experience in residential and commercial project management. InterNACHI- and ACHI-certified, he founded InspectAfrica, authored a West African Home Manual, and has delivered international-standard inspections since 2019, advocating safer, compliant, and sustainable building practices across Africa. He's also the president/ Founder of Home Inspectors Nigeria LTD .

George. U. Anijah

NON- EXECUTIVE DIRECTOR

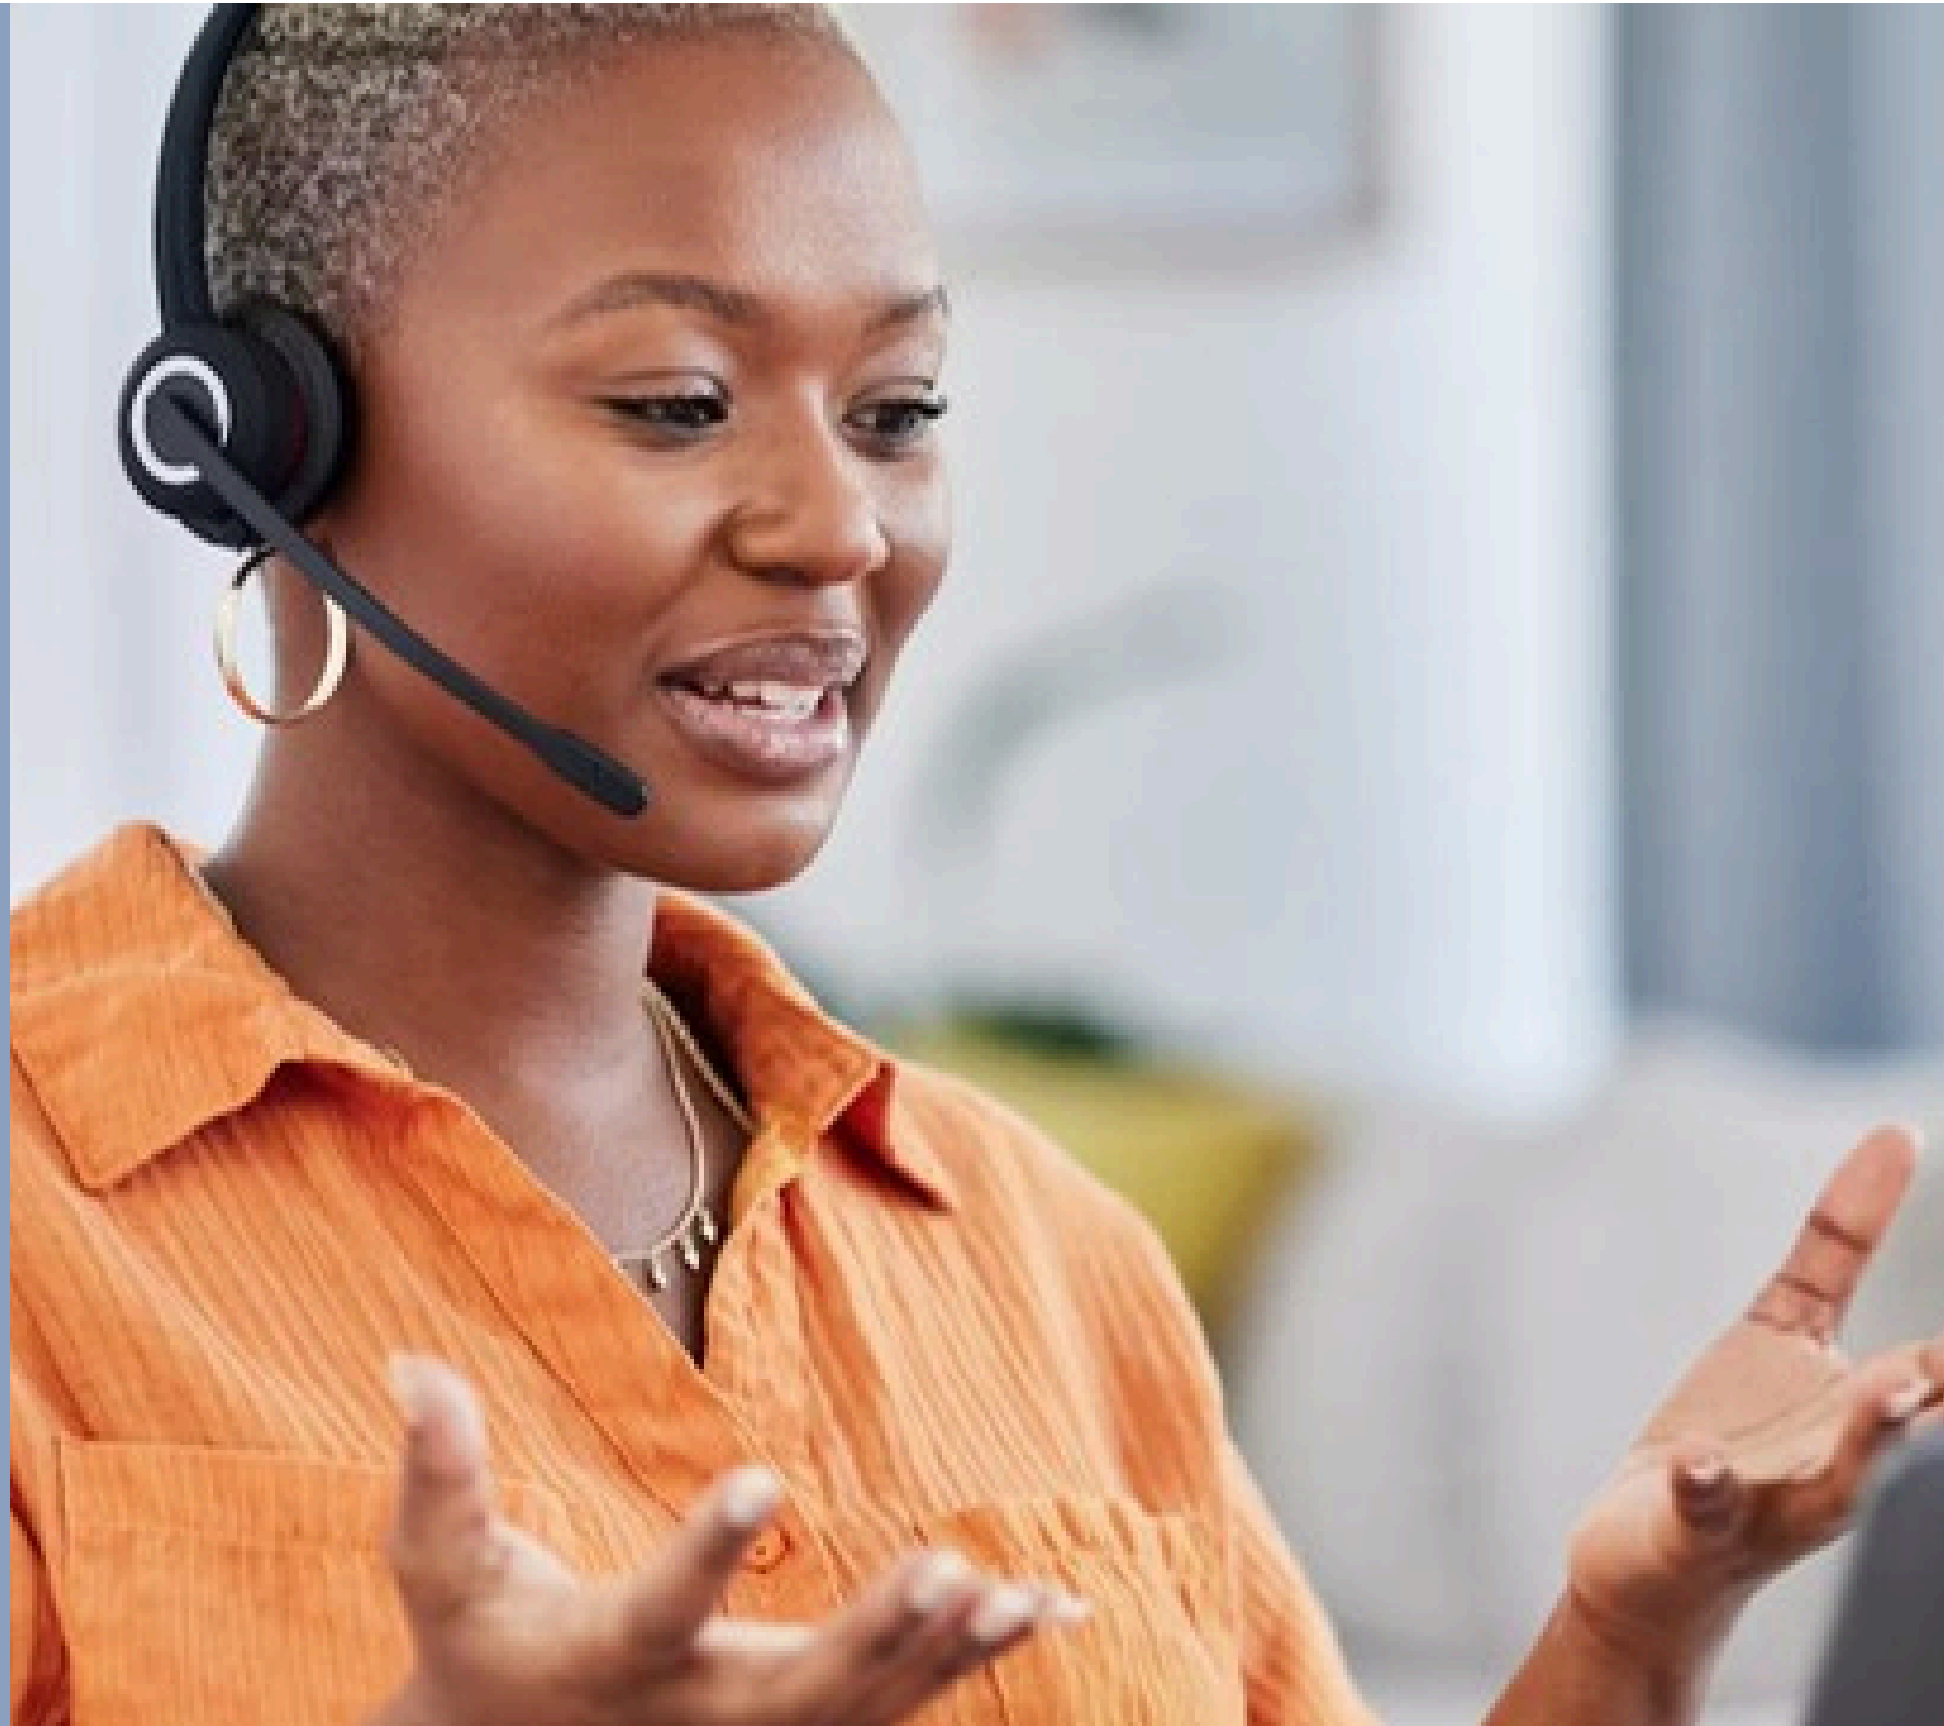

With over two decades of experience in the energy and power sector, George Uche Anijah-Obi serves as the Chief Operating Officer at Crimson Power, where he provides strategic leadership and operational oversight across the company's core functions.
